

Look

It is **clean and dry**,
and it **covers the exit site**
(the place where
the catheter comes out
of your skin)

Look at your
catheter dressing
in the mirror.

The dressing **does not**
cover the exit site,
it is **wet or dirty**,
there is **blood or pus**
on the dressing.

Looking good!

*Contact your dialysis
care team if you notice
any "stop" signs!*
