

# Arm Elevation Test

## Upper Arm AVF

The AVF outflow vein **partially collapses** when the arm is raised above the level of the heart. It may feel “flabby” when palpated.

## Lower Arm AVF

The AVF outflow vein **collapses** when the arm is raised above the level of the heart.

## Upper Arm AVF

The AVF outflow vein **does not partially collapse** or become “flabby” after being raised above the level of the heart.

## Lower Arm AVF

The AVF outflow vein **does not collapse** after being raised above the level of the heart.

*Good to go!*

*Contact expert clinician if any “stop” signs noted.*
