

“Invest in Your Future”

VASA MEMBERSHIP BENEFITS

Individual membership benefits provide the ability for you to improve clinical aspects of your professional career and your quality patient care efforts by:

- Receiving and communicating information on state-of-the-art clinical issues and new, cutting-edge developments in vascular access and dialysis
- Acting collectively on public policy and advocacy issues impacting your ability to provide quality patient care. Currently among these issues are fair and equitable reimbursement, medical liability reform, and patient safety
- Adding your voice to the voices of your colleagues to express and to remedy flawed decisions by public policymakers
- Networking and collaborating with professional health colleagues on clinical and practice interests
- Participating in continuing education opportunities and programs which meet the needs of all medical professionals involved in vascular access and dialysis
- Benefiting from VASA special projects and activities related to your daily patient care activities
- Working to build and to blend a cohesive body of expertise in vascular access and dialysis

These and other benefits — tangible and intangible — are available through the **Vascular Access Society of the Americas**.
